

Fully Automatic Handle Inserted PET Bottle

PET bottle with inserted handle is getting popular in the packaging field, especially for edible oil & large size water bottle. As the labour cost has been increasing rapidly in different countries, many bottle suppliers start looking for fully automatic blowing machines in order to reduce production cost.

With proven experiences, WEILI is one of the rare & reliable manufacturers who is able to provide Fully Automatic Reheat Stretch Blow Moulding Machines for PET bottle with inserted handle!

Advantages:

Easy Pouring

Bottles with handle design are more convenient for carrying, pouring and preventing slippery.

Solid Handle

Handle can be strongly attached to the bottle body during the Fully Automatic Inserting process.

Light Weight

PET Bottles are lighter in weight and higher in transparency comparing to extrusion blow moulded bottles.

Expertise:

Flexible Design

Both Fully & Semi Automatic are feasible by only changing the swappable parts in WEILI machines.

Stable Performance

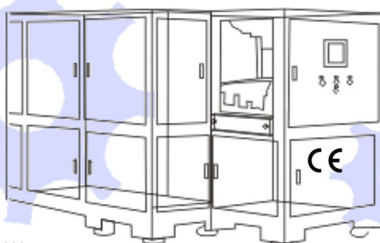

Mature technology ensures consistent machine performance.

Cost Effective

Relatively low investment comparing to European & Japanese technology.
